SUMMARY

Angular developer with 7 years building TypeScript apps for trading and healthcare. Reworked a live price grid for 450 traders to run without frame drops, upgraded a banking portal across 4 major versions in 10 weeks, and maintains a 38-component library for 5 teams.

EXPERIENCE

Senior Angular Developer — Silvergate Brokerage

Charlotte, NC · Apr 2022 – Present

- Reworked the live price blotter with OnPush, track expressions and RxJS throttling, removing frame drops for 450 traders during market open.
- Upgraded the client portal from Angular 12 to 16 in 10 weeks, one version at a time, with 0 production incidents.
- Built a 38-component library with typed inputs and harness tests, adopted by 5 teams across 14 apps.
- Replaced manual subscriptions in 60 components with the async pipe and takeUntilDestroyed, ending a memory leak that forced daily refreshes.

Angular Developer — Meridale Health Systems

Raleigh, NC · Jun 2019 – Mar 2022

- Built typed reactive forms for patient intake at 85 clinics, cutting incomplete submissions by 42%.
- Lazy-loaded 11 feature routes, cutting the initial bundle from 2.3MB to 900KB.
- Wrote 400 Jasmine unit tests and 25 Cypress tests, raising coverage from 22% to 74%.
