Marcus Bell

Full Stack Developer

Chicago, IL · marcus.bell@example.com · (312) 555-0193 · LinkedIn · GitHub

SUMMARY

Full stack developer with 6 years of experience shipping product features end to end in TypeScript, Node.js, React and PostgreSQL. Built billing, dashboards and internal tools for a B2B SaaS startup, and owns the CI/CD pipeline that ships them.

EXPERIENCE

Full Stack Developer — Copperline Software

Chicago, IL · May 2022 – Present

- Shipped an inventory dashboard end to end, from PostgreSQL schema and Node.js API to React UI, adopted by 600 restaurant accounts in its first 2 months.
- Built Stripe subscription billing with webhooks and a self-serve plan page, replacing manual invoicing for 1,100 customers.
- Set up a TypeScript monorepo with types shared between the API and frontend, ending the contract bugs behind 5 incidents in a year.
- Cut CI time from 22 to 9 minutes with test sharding and Docker layer caching in GitHub Actions.

Web Developer — Northpoint Media

Chicago, IL · Aug 2019 – Apr 2022

- Built a content management tool in Ruby on Rails and React for 40 editors, cutting article publishing time from 25 to 8 minutes.
- Rebuilt the newsletter sign-up flow and its API, growing confirmed subscribers from 18,000 to 52,000 in a year.
- Moved hosting from a single VPS to AWS with RDS and automated S3 backups, and set up uptime alerting.

SKILLS

Frontend: React, TypeScript, Next.js, Tailwind CSS

Backend: Node.js, Express, NestJS, Ruby on Rails, REST, GraphQL

Data and cloud: PostgreSQL, Redis, Prisma, AWS (EC2, RDS, S3, Lambda), Docker

Tooling: GitHub Actions, Jest, Playwright, Stripe API

EDUCATION

B.S. Computer Science, University of Illinois Chicago, 2019

Fictional example by FindAJobAI: the person, employers and numbers are invented.
