BLS, American Heart Association, 2025

SUMMARY

Certified patient care technician with 5 years on a 32-bed telemetry unit and in a Level II emergency department, caring for up to 12 patients a shift. Take vitals, draw blood, run 12-lead EKGs, check blood glucose and help patients with mobility, hygiene and meals. Known for reporting early changes to nurses and for steady work on short-staffed nights.

EXPERIENCE

Patient Care Technician II — Scioto Ridge Medical Center

Columbus, OH · Apr 2022 – Present

- Care for 10 to 12 telemetry patients a shift, taking vitals every 4 hours and reporting 3 to 5 abnormal readings a week to the charge nurse within 10 minutes.
- Run about 15 12-lead EKGs a shift and hand each tracing to the nurse, with zero repeat tracings for lead placement errors in 2025.
- Draw about 20 blood samples a night for morning labs, keeping hemolyzed or mislabeled specimens under 1% for 18 straight months.
- Complete hourly rounding on high fall risk patients, helping the unit go 214 days without a fall with injury.
- Precepted 6 new patient care technicians through a 4-week unit orientation, all signed off on time.

Emergency Department Technician — Olentangy Valley Hospital

Delaware, OH · Jun 2020 – Mar 2022

- Roomed and took initial vitals for about 25 patients a shift in a 28-bed emergency department seeing 140 visits a day.
- Set up splints, wound care trays and suture kits for about 10 procedures a shift, cutting provider wait time for supplies.
- Transported about 15 patients a shift to imaging and inpatient units with no transport incidents in 21 months.
