SUMMARY

QA tester with 5 years testing web and mobile apps in fintech and e-commerce. Built a 420-case regression suite in TestRail that cut escaped production defects by 45%, and writes bug reports developers can reproduce on the first try. Comfortable with API testing in Postman, SQL checks and starting simple Cypress automation.

EXPERIENCE

QA Tester — Pinecrest Pay

Raleigh, NC · May 2022 – Present

- Built and maintain a 420-case regression suite in TestRail for the iOS, Android and web apps, cutting escaped production defects by 45% in 18 months.
- Log about 30 defects a sprint in Jira with steps, logs and screen recordings, and 92% are reproduced by developers on the first attempt.
- Tested a new card-payment flow across 14 device and browser combinations, catching 3 rounding errors in refund amounts before launch.
- Automated 60 stable smoke checks in Cypress, cutting the pre-release smoke pass from 3 hours to 25 minutes.
- Checked transaction data with SQL after each release, finding a sync bug that would have duplicated 1 in 500 statements.

Junior QA Tester — Brightloom Digital

Durham, NC · Aug 2020 – Apr 2022

- Tested 12 client e-commerce sites before launch, running checkout, search and account test cases on 6 browsers.
- Wrote 250 test cases from user stories, flagging 40 unclear acceptance criteria during refinement before work started.
- Ran accessibility checks with axe and screen readers on 5 sites, logging 70 issues that were fixed before go-live.
- Found a tax calculation bug in a client checkout during exploratory testing that affected orders shipped to 3 states.
