Leocadia Abernathy-Osei

Ruby on Rails Developer

Denver, CO · leocadia.abernathyosei@example.com · (720) 555-0191 · LinkedIn · GitHub

SUMMARY

Ruby developer with 6 years building and maintaining Rails applications for e-commerce and healthcare. Led the Rails 6.1 to 7.1 upgrade of a 400,000-line monolith with no customer-facing incidents, and cut checkout response time from 900ms to 280ms by fixing N+1 queries and caching. Comfortable owning features from schema design to production monitoring.

EXPERIENCE

Senior Ruby Developer — Copperkettle Commerce

Denver, CO · Mar 2022 – Present

- Led the upgrade of a 400,000-line Rails monolith from 6.1 to 7.1 over 5 months using dual boot, with zero customer-facing incidents at cutover.
- Cut median checkout response time from 900ms to 280ms by removing N+1 queries, adding composite indexes and fragment caching.
- Moved order emails and inventory syncs to Sidekiq with retries and idempotency keys, processing 1.2 million jobs a day with a failure rate under 0.1%.
- Reduced the RSpec suite runtime from 38 to 11 minutes by parallelizing CI and replacing slow factories, so 30 developers got feedback faster.

Ruby Developer — Tallgrass Health Scheduling

Boulder, CO · Jun 2019 – Feb 2022

- Built the appointment booking API in Rails serving 220 clinics, with JSON:API responses under 150ms at the 95th percentile.
- Added Pundit authorization and audit logging to 40 controllers, helping the company pass its first HIPAA risk assessment.
- Wrote a Ruby gem for calendar sync with 3 EHR vendors, replacing 2,000 lines of duplicated integration code.

SKILLS

Languages: Ruby, SQL, JavaScript, Bash

Rails ecosystem: Ruby on Rails 7, Hotwire, ActiveRecord, Sidekiq, Devise, Pundit, RSpec, FactoryBot

Data: PostgreSQL, Redis, Elasticsearch

Infrastructure: Docker, Heroku, AWS (ECS, RDS), GitHub Actions, Datadog, Sentry

EDUCATION

B.S. Computer Science, University of Colorado Denver, 2019

Fictional example by FindAJobAI: the person, employers and numbers are invented.
