CERTIFICATIONS

Certified Registered Central Service Technician (CRCST), HSPA, 2020

Certified Instrument Specialist (CIS), HSPA, 2023

Certified Endoscope Reprocessor (CER), HSPA, 2024

SUMMARY

Certified sterile processing technician with 6 years in a 420-bed hospital and an ambulatory surgery center, supporting 22 operating rooms. Decontaminate, inspect, assemble and sterilize about 70 instrument trays a shift, run steam and low-temperature sterilizers, and track every set through the instrument tracking system. Known for accurate count sheets and careful inspection under magnification.

EXPERIENCE

Sterile Processing Technician II — Lakeshore Meridian Hospital

Chicago, IL · May 2021 – Present

- Assemble about 70 instrument trays a shift for 22 operating rooms, keeping tray errors reported by the OR under 0.5% of sets in 2025.
- Run and document about 14 steam sterilizer loads a shift, including daily Bowie-Dick tests and biological indicators, with zero recalls caused by load records.
- Inspect instruments under lighted magnification and pull about 25 damaged items a month for repair, cutting OR complaints about dull or broken instruments by about 40%.
- Reprocess about 18 flexible endoscopes a shift with automated endoscope reprocessors, passing 3 infection prevention audits with no findings.
- Trained 7 new technicians on prep and pack and the instrument tracking system, each working independently within 6 weeks.

Sterile Processing Technician — Wicker Park Surgery Center

Chicago, IL · Mar 2019 – Apr 2021

- Decontaminated and assembled about 45 trays a day for 5 operating rooms performing orthopedic and ENT cases.
- Checked in about 6 vendor loaner sets a week, completing inventory and sterilization at least 24 hours before each case.
- Ran low-temperature hydrogen peroxide cycles for about 20 heat-sensitive devices a day with complete cycle documentation.

SKILLS

Reprocessing: Manual and automated decontamination, ultrasonic cleaners, washer-disinfectors, cleaning verification tests

Sterilization: Steam, low-temperature hydrogen peroxide, Bowie-Dick testing, biological and chemical indicators, load records

Instruments: Tray assembly from count sheets, inspection under magnification, loaner sets, flexible endoscopes

Systems: Censitrac, SPM instrument tracking, Epic OpTime, manufacturer IFU libraries

EDUCATION

Sterile Processing Technician Certificate, Malcolm X College, 2019
