SUMMARY

Six years shipping Vue and TypeScript for online retail and field service tools. Moved a 700,000-visitor storefront to Nuxt, so product pages now paint in 1.7 seconds instead of 3.9, and led a Vuex to Pinia migration across 7 domains.

EXPERIENCE

Senior Vue Developer — Oakhollow Furniture

Denver, CO · Feb 2023 – Present

- Rendered 26 category and product pages on the server with Nuxt 3, so first paint for 700,000 monthly shoppers dropped from 3.9 to 1.7 seconds.
- Split a 4,000-line Vuex store into 7 Pinia stores over 5 months, with no feature freeze and 0 rollbacks.
- Replaced deep watchers with computed filters on the listing page, cutting filter response time from 1.2 seconds to 140ms.
- Built 41 shared components with typed props and Storybook docs, now used by 4 product teams.

Front-End Developer — Fieldmark Service Software

Boulder, CO · Jul 2020 – Jan 2023

- Built a Vue 2 dispatch board used by 300 technicians a day, with drag-and-drop scheduling that cut double bookings by 65%.
- Upgraded 3 internal apps from Vue 2 to Vue 3 with the migration build, shrinking the main bundle by 28%.
- Wrote Vitest and Vue Test Utils tests for 12 forms, raising coverage from 15% to 72% and catching 9 bugs before release.
